## Project 86

Night falls like a vulture  
On it's prey, wicked culture  
Black pitch and getting darker  
It's time to spark ourselves in this hour  
When they hide in the shadows of night  
Light em up, light em up in the dark  
Let's ignite, we're the ones  
When they hide in the shadows of night  
Light em up, light em up in the dark  
Let's ignite, we're the ones  
You're laid bare, foolish mortal  
Dark deeds, mass inferno  
Covert crimes, closet portal  
Your skeletons are burning eternal  
When they hide in the shadows of night  
Light em up, light em up in the dark  
Let's ignite, we're the ones  
When they hide in the shadows of night  
Light em up, light em up in the dark  
Let's ignite, we're the ones  
When they hide in the shadows of night  
Light em up, light em up in the dark  
Let's ignite, we're the ones  
Light em up, light em up in the dark  
Let's ignite, we're the ones  
Light em up, light em up in the dark  
Let's ignite, we're the ones
