Third Time Around

Angie Aparo

Come from Ohio
Married the first girl again
Somewhere in Reno
In his El Camino, he never did see her againNo world can look
Like it did before
But this one comes pretty close
To the swinging doorOne time's a shame
Two times and you're to blame
And you lose your precious crown
Third time aroundThis ain't no freeway
You pay for it someday, I guess
Came from Ohio
Another day, another stay
On your map of regretNo world can look
Like it did before
But this one comes pretty close
To the swinging doorOne time's a shame
Two times and you're to blame
And you lose your precious crown
Third time aroundAnd you get no sleep
And you are overdue
And the faithful creep when they're leaving you
And you wonder why, why?One time's a shame
Two times and you're to blame
And you lose your precious crown
Third time aroundOne time's a shame
Two times and it looks like rain
And they say your luck is found
Third time aroundThird time around, third time around
Third time around, third time around
Third time around, third time around
