

# Third Time Around

Angie Aparo

Come from Ohio  
Married the first girl again  
Somewhere in Reno  
In his El Camino, he never did see her again  
No world can look  
Like it did before  
But this one comes pretty close  
To the swinging door  
One time's a shame  
Two times and you're to blame  
And you lose your precious crown  
Third time around  
This ain't no freeway  
You pay for it someday, I guess  
Came from Ohio  
Another day, another stay  
On your map of regret  
No world can look  
Like it did before  
But this one comes pretty close  
To the swinging door  
One time's a shame  
Two times and you're to blame  
And you lose your precious crown  
Third time around  
And you get no sleep  
And you are overdue  
And the faithful creep when they're leaving you  
And you wonder why, why?  
One time's a shame  
Two times and you're to blame  
And you lose your precious crown  
Third time around  
One time's a shame  
Two times and it looks like rain  
And they say your luck is found  
Third time around  
Third time around, third time around  
Third time around, third time around  
Third time around, third time around
