

# Sylvia

## Telekinesis

sylvia  
you gotta come home now  
there's too many seasons in your head  
sylvia  
put down the phone now  
there's no need to smoke your cigarettegotta know you feel it  
gotta know you feel it yeahsylvia  
there's so much to know now  
i could see the future from your bed  
oh no  
don't look so forlorn now  
there's so many things to comprehendgotta know you feel it  
gotta know you feel it yeah  
i forget  
you forget  
we forget  
there's always someone looking out  
for someone out there  
always looking out  
always looking out  
for someone out there  
always looking out
