

# How Country Feels

## The Swon Brothers

You were raised on an asphalt farm  
Ain't never heard a rooster crow  
Never walked barefoot by a river  
Felt the mud up between your toes

You never rolled in the hay  
You never thrown it in four wheel  
Climb up on here girl  
Let me show you how country feels

Let your hair down, hair down  
Get you some of this laid on back  
Kick your shoes off, kick 'em off  
Get you some of this slow down fast  
I'll take you up and down these hollers and hills  
Let me show you how country feels

You ever watched the sun go down  
From the bed of a pickup truck  
Ever been so into somebody  
You're still lying there when it comes back up

Girl what do you say?  
Cut a path through that cornfield  
Park down by the water  
Let me show you how country feels

Let your hair down, hair down  
Get you some of this laid on back  
Kick your shoes off, kick 'em off  
Get you some of this slow down fast  
I'll take you up and down these hollers and hills  
Let me show you how country feels

Let your hair down  
Get you some of this laid on back  
Kick your shoes off (Kick your shoes off)

Let your hair down, hair down  
Get you some of this laid on back

Kick your shoes off, kick 'em off  
Get you some of this slow down fast  
I'll take you up and down these hollers and hills  
Let me show you how country feels  
Country feels
