

# Singing With Angels

Suzi Quatro

I heard your voice late last night  
I heard you say are you lonesome tonight  
I saw you crying in the chapel light  
Love me tender and treat me nice

Lonely boy got the G.I. Blues  
That's alright mama's watching over you  
Wise men say if you don't be cruel  
You'll get to heaven wearing blue suede shoes

[Chorus]  
Singing with angels, safe in God's promised land  
Singing with angels, walking hand in hand  
Singing with angels, it's part of God's master plan  
There's so many angels walking hand in hand  
What a beautiful land

I got a woman she's my happiness  
Don't leave me now in my loneliness  
Heartbreak hotel I was counting on you  
Thought I had a lot of living to do

The blue moon of Kentucky shines  
Burning love makes suspicious minds  
Mystery train heading for the light  
Gracelands star burning bright

[Chorus]

[repeat x3]

Elvis has left the building
