

# **Dia Dos Namarados!**

## **Broken Records**

Darling can you hear me can you open up your eyes  
And see that every move I make is a dance just for your gaze  
That every single action is a means not to emend  
An opposite reaction to the diffidence you claimSo pick me,take me,hate me,claim me  
Make me something more  
Something better than the black and white that colored me before  
I want to feel your body and your hands upon my chest  
To feel my emptinessSo bury me beneath the pines  
In the shallow soil  
In the filth and ground  
And still this heart will yearn for youSo I've hatched upon a plan  
A scheme of devilish wit  
A pallid life to guide me through the caverns of your heartI'll take this knife upon myself and gouge a shallow  
track  
Until you love me backSo bury me beneath the pines  
In the shallow soil  
In the filth and ground  
And still this heart will yearn for you
