

Finding Myself

Smile Empty Soul

I don't care anymore if I let you down
I believe that I need to be free
I'm so used to my life with you around
I don't know anymore, the real me And I thought that I found myself today
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you All these tears that I've cried
You must be tired of taking care of me but
It's what you do best and I'm a liar
'Cause really it's what I need And I thought that I found myself today
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you Someone like you
Someone like me
Maybe it's change that set you free
Free And I thought that I found myself today
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you And I thought that I found myself today
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you
