He's Turning Blue

Carpathian Forest

He hung himself in the middle of the night
Found dead in the morning bright light
Got no more lithium
Gave up life
They say: you better give up now
Its not worth the strife
The soul constipationHe's turning blue
He's turning blue
He's turning blue
He's turning blue
And nobody caresHe withered
He's not the only one
Come on get it over with
You're not the only oneHe's turning blue
[repeat three more times]
And nobody cares
