

Heart Away To You

Taio Cruz

the first day we met girl it was so beautiful
and i told to you 'cause you were there oh no
it was obvious our feelings were mutual
i should told you babe but i just didn't know
but then you tried to owe me
too many times you told me
but now i guess i'm afraid i'ma have to leave you lonely
and i know that i want you
and i know that i need you
oh baby
try to understand that it's hard for me
'cause i'm so confused
i am making bets i can take you on it's too soon
i can make you .. so i can ask you to stay
though i want you too
it's hard to give my heart away to you
i don't mean to blame all my past history
see the someone way back
see you try to owe me
too many times you called me
and that is why i'm afraid i might have to leave you lonely
and i know that i want you and i know that i need you

try to understand that it's hard for me
'cause i'm so confused
i am making bets i can take you on it's too soon
i can make you .. so i can ask you to stay
though i want you too
it's hard to give my heart away to you
see you try to owe me
too many times you called me
and that is why i'm afraid i might have to leave you lonely
and i know that i want you and i know that i need you
try to understand that it's hard for me
'cause i'm so confused
i am making bets i can take you on it's too soon
i can make you .. so i can ask you to stay
though i want you too
it's hard to give my heart away to you

try to understand that it's hard for me
'cause i'm so confused
i am making bets i can take you on it's too soon
i can make you .. so i can ask you to stay
though i want you too
it's hard to give my heart away to you
