

# Dance of the Dope Hats

## Marilyn Manson

I peek into the hole, I struggle for control  
The children love the show  
But they fail to see the anguish in my eyes  
Fail to see the anguish in my eyes I scratch around the brim, I let my mind give in yeah, yeah  
The crowd begins to grin  
But they seem to scream when darkness fills my eyes  
Seem to scream when darkness fills my eyes  
It's no surprise Fail to see the tragic, turn it into magic  
My big top tricks will always make you happy  
But we all know the hat is wearin' me My bag is in the hat, it's filled with this and that  
My vision's getting fat, the rabbit's just a monkey in disguise  
Stars and pills and needles dance before our eyes  
They will bite the hand if it is slower than  
The quickness of their scrutinizin' eyes
