Who's The Enemy

Feeder

We're running away
Further away
'Cause we won't take this
Losing my way
Knocked to the ground
I lie beside her
You know they're telling us
Nothing's ever gonna change
You know they're telling us
Nothing's ever gonna change
We're running away
Further away
So we might make it
Let's forget
Don't think about it
Let's forget, let's forget
Don't think about it
We're fighting with ourselves but
Who's the enemy?
Tear in the sky
Choking the world
That cries before us
It's time to decide
We can't hear or
Sit alone in silence
You know they're telling us
Nothing's ever gonna change
You know they're telling us
Nothing's ever gonna change
We're running away
Further away
So we might make it
Let's forget
Don't think about it
Let's forget, let's forget
Don't think about it
We're fighting with ourselves but
Who's the enemy?
Who's the enemy?

Who's the enemy?
Who's the enemy?
Who's the enemy?
Who's the enemy?
Who's the enemy?
Who's the enemy?
Who's the enemy?
Who's the enemy?
We're running away
Further away
'Cause we won't take this
Losing our way
Knocked to the ground
But we might make it
Let's forget
Don't think about it
Let's forget, let's forget
Don't think about it
We're fighting with ourselves but
Who's the enemy?
Let's forget
