'Till a morning - pon the rhythm  
With a little a this and a little a that  
Listen mi voice through the tweeter box  
Sound sweeter with an echo chamber  
And don't you know we a the dangerTemper my god this ya sound ina temper  
Fever - some other sound bwoy die Ina fever  
Me see it ya

Hear the bass a rumble through the speaker - speaker  
Top end full of clarity just listen to the tweeter -  
Listen to the tweeter  
It's getting sweeter  
John say him priority is to find a chicitita  
and dem want fi rock it all night to the beat ya  
When the sound a play dem want fi dance  
Off dem feet ya -

Let the people hold a joy and  
Everything will be criss  
Tell me how can we live under  
Your empty promise  
You a pressure reggae music and  
We just can't stand it  
Every dance in the street you want  
Run come ban it  
But dem nuh stop dem nuclear and atomic  
So dem ship it a go sink like the great Titanic  
People keep a cool head and don't you panic I just love how the dancehall girls keep wining -  
Ina timing  
And dem give me the vibes ina

Girls dem bubble like a soup ina pot  
Some like it cold some like it hot  
Boil like a soup ina pot Temper my god this ya sound ina temper
