

# You Can Bounce

Shanice

Uuh, guess who's back  
Make it bounce, make it bounce  
Uuh, make it bounce, make it bounce  
Uuh, make it bounce, make it bounce  
Uuh, you can bounce, you can bounce  
Uuh, you can bounce, you can bounce Boy you're telling me you wanna leave, it's alright with me  
'Cuz it's something going on that you don't know  
I got someone else waiting for me, this is gonna be easy  
I knew that one day it was gonna end I've always needed a way out  
Boy now I know what you're about  
I've wasted so many years of my life  
You can have everything else, I'm out You can have the house, here's the key  
You can have the car, I don't need you anymore  
Take the diamonds and the furs, not another word  
I ain't coming back no more You can have the house, here's the key  
You can have the car, I don't need you anymore  
Take the diamonds and the furs, not another word  
I ain't coming back no more Leaving behind all bad memories, so here take all your things  
I don't need that negativity with me  
You must have been reading my mind 'cuz I finally opened up my eyes  
You're doing me a favor walking out my life, my life I've always needed a way out  
Boy now I know what you're about  
I've wasted so many years of my life  
I'm not your fool anymore, I'm out, yeah, yeah You can have the house, here's the key  
You can have the car, I don't need you anymore  
Take the diamonds and the furs, not another word  
I ain't coming back no more You can have the house, here's the key  
You can have the car, I don't need you anymore  
Take the diamonds and the furs, not another word  
I ain't coming back no more You can bounce, you can bounce  
You can bounce, you can bounce  
You can bounce, you can bounce  
You can bounce, you can bounce You can have the house  
You can bounce, you can bounce  
I don't need you anymore You can have the house, here's the key  
You can have the car, I don't need you anymore  
Take the diamonds and the furs, not another word  
I ain't coming back no more You can have the house, here's the key  
You can have the car, I don't need you anymore

Take the diamonds and the furs, not another word  
I ain't coming back no more You can have the house  
Uuh, you can bounce, you can bounce  
The diamonds and the furs  
Uuh, you can bounce, you can bounce You can have the house, here's the key  
Here's the car, I don't need you anymore  
Uh you can bounce, you can bounce  
The diamonds and the furs, not another word  
I ain't comin' back no more  
You can bounce, you can bounce
