

# Its Like

## Marty Ray Project

This one's for all the uh Valentine's out there

(VERSE)

It's like blood from a turnip or money from a tree  
This real-life story book we wrote said you are the beauty and I am the Beast  
It's like a needle in the haystack or a diamond in the rough.  
I'll bleed on every battleground just to feel your love

(CHORUS)

Cuz One two three four I wrote another song baby just for  
For you to sing along, my heart skips beats it gets harder to breathe  
Every time you're around me I fall head over heels again baby  
Just call this life we're living in silver linings  
A single drop in the sea

(VERSE)

Yeah it's like hope for tomorrow living in a dream  
Yeah  
Breathing for each other believing things that can not be seen  
Its like a penny for my thinking or an alabaster box  
Two nights when you are in need said I'll give you everything that I got

(CHORUS)

Cuz one, two, three, four I wrote another song baby just for  
For you to sing along, my heart skips beats it gets harder to breathe  
And every time you're around me I fall head over heels again baby  
Just call this life we're living in silver linings  
A single drop in the sea  
ooooh oooh yeah Hallelujah Glory Glory

(VERSE)

Every time I think about you credit where credit's due  
I'm saying perfection when God made you  
My friends are jealous of the card I drew

I'm saying sometimes baby it's even hard for me to chew

(CHORUS) x2

Cuz one, two, three, four I wrote another song baby just for  
For you to sing along, my heart skips beats and gets harder to breathe  
Every time you're around me I fall head over heels again baby

Just call this life we're living in silver linings

A single drop in the sea

One two three four I wrote another song baby just for  
For you to sing along my heart skips beats it gets harder to breathe  
And everytime time you're around me I fall head-over-heels again baby

Just call this life we're living in silver linings

A single drop in the sea

Yeah

it's like a fairytale you and me»¿
