

# That Bottle In Your Hand

## Weaselhead

if Iâ€™m ever going to move ahead  
I know, Iâ€™ve got to be strong  
to end this cycle of abuse  
I know, it will be long

another day goes by and then  
here we are  
another challenge lies ahead  
for you and me

and it hurts me to think about you  
and itâ€™s so hard to understand  
and itâ€™s so hard to get to know you  
with that bottle  
in your hand

if weâ€™re ever going to live our life  
we know  
weâ€™ve got to be strong  
to build a future for our children we  
have to move along

donâ€™t dwell upon the past, move on  
but donâ€™t forget  
we owe it to ourselves  
to always understand

and it hurts me to think about you  
and itâ€™s so hard to understand  
and itâ€™s so hard to get to know you  
with that bottle  
in your hand

and it hurts me to think about you  
and itâ€™s so hard to understand  
and itâ€™s so hard to recognize you  
with that bible  
in your hand

and it hurts me to think about you  
and it's so hard to understand  
and it's so hard to get to know you  
with that rifle  
in your hand
