

Concrete Waves (DJ Premier 320 Remix)

Kendra Morris

Did you ever ride a concrete wave?
Did you ever ride a concrete wave?
Did you ever ride a concrete wave?
What it say? What it say? Pavement cracks just an accident,
Pavement cracks just an accident,
Pavement cracks just an accident,
Money well spent, til you're late on rent What you do to fill me up,
Will bring one down, just one slip up Did you ever ride a concrete wave?
High as a kite, til the crash does cave
Did you ever ride a concrete wave?
Ride me on back to the golden days To the top my head does burn
With thoughts of you I'll never learn FIND YOU WANT ME?
WHOA. FIND YOU WANT ME?
NO. FIND YOU WANT ME.
NO. FIND YOU WANT ME. Did you ever try to burn a breeze?
Did you ever try to burn a breeze?
Did you ever try to burn a breeze?
Light a match it's not easy Add a little bit of fuel to flame,
Add a little bit of fuel to fire,
Add a little bit of fuel to flame,
Watch it burn, watch it blaze higher Wrong ideas are quite alright
If you don't tell lets have tonight Did you ever try to burn a breeze?
Candles catch torching the trees
Did you ever try to burn a breeze?
Eye for eye, teeth for teeth Secrets, secrets are no fun
If you can't whisper to someone FIND YOU WANT ME?
WHOA. FIND YOU WANT ME?
NO. FIND YOU WANT ME.
NO. FIND YOU WANT ME. Let me catch you carry you to shore
Wrap you in white tides give you some more
Send you to the sun where asphalt glows
Melt away like putty as the wind blows Let me catch you carry you to shore
Wrap you in white tides give you some more
Send you to the sun where asphalt glows
Melt away like putty as the wind blows
