Found In You

Grammatrain

As I lay here
Looking toward the sky
Beauty fills my eyesAnd the wonders
Spread across the land
Painted with your handLooking for where I belong
Lead me to the place
I found in you
Looking back where I've come from
I could never
leave this place in youStill silnce
When you speak to me
Like a summer breezeAnd my soul
floating through the air
Robbed of all my caresLooking for where I belong
Lead me to the place
I found in you
Looking back where I've come from
I could never
leave this place in youForever You were and You are
Forever You are morning star
You are (Jesus)
You are (Jesus)
You have lifted me
and set me freeLooking for where I belong
Lead me to the place
I found in you
Looking back where I've come from
I could never
leave this place in youNo never leave
never never leaveLooking for where I belong
I have come to find
this place in YouForever You were and You are
Forever You are morning star
