

While He's Still Around

Florida Georgia Line

Verse

While he's still around
I'm gonna take him out to fish
So we can catch up on new stories that we ain't got to yet
And while he's still around
I'm gonna make a couple of notes
About how he's loved my mama
Since all those years ago

Chorus
Cause you never know when the phone is gonna ring
Saying heaven handed out some angel wings
And all those things that you were gonna do
Are just teardrops raining on a church pew
So I'm gonna try to say it before I gotta pray it
Hoping that he's looking down
And tell him that I love him
While he's still around

Verse
While he's still around
We gonna fix up that ol' car
So one day when its all mine
He'll be there every time it starts
And while he's still around
Yea I wanna meet the one

Chorus
Watch him try and hold them tears back
While I see him hold my son
Cause you never know when the phone is gonna ring
Saying heaven handed out some angel wings
And all those things that you were gonna do
Are just teardrops raining on a church pew
So I'm gonna try to say it before I gotta pray it
Hoping that he's looking down
And tell him that I love him

While he's still around
I'm gonna try and catch a game with him
Take a road trip get on out of the state with him
Make every memory I can make with him
Live it up before its too late with him
Chorus
You never know when the phone is gonna ring
Saying heaven handed out some angel wings
And all those things that you were gonna do
Are just teardrops raining on a church pew

So I'm gonna try to say it before I gotta pray it
Hoping that he's looking down
And tell him that I love him
While he's still around
