Chains of Love

Ryan Adams

Walk away slowly
You don't have to take this
In the spaces in between
Sadness on the basisI can see the chains of love
The chains
Talking 'bout the chains of love
Can't take us awayStorms are brewing in your heart
I don't wanna waste it
Better to have tried it all
Least we got to taste itLocked up in the chains of love
We change
Caught up in the chains of love
Can't take us awayClouds moving over the house
I think about those days
Wish I had something to relax my mind
Send me off to heaven
I've got nothing but timeLightning in the sky above
Blinking, see the traces
Everything you are to me
Is bigger than the spacesBetween us in the chains of love
The chains
Locked up in the chains of love
Can't take us awayCan't take us away
Can't take us away
Can't take us away
