

Ziltoidian Empire

Devin Townsend

Calling on the earth's core (part of the mind)
We are human beings! Calling on the earth's core (part of the mind)
We are humans being! What will we find, when we all will die? Collective, this is commander Ziltoid the
omniscient reporting
Greetings, Ziltoid... what is that strange creature?!?
Oh, this little thing! Yes... they call it a 'Poozer'
...From the planet Titan?? You must take it back!!! Calling on the earth's core (part of the mind)
We are human beings! Calling on the earth's core (part of the mind)
We are humans being! Where do we find the human soul?
All the searching leads to you!
(I've grown over, I roll over)
I crawl over my life of honour
All these children, entitled horrors... Meanwhile, far across the solar system, Queen Blattaria, a war princess and
the mother of the poozers, realizes one of her children has gone missing! Oh no... where is my
Poozer!!!!!!??? The plot thickens... (I am nowhere, I am no one... I am nowhere, I am no one) Commander, are
you sure that the war princess does not suspect it was you who abducted her Poozer?
Oh yes, absolutely collective, indeed. You should have seen me:
I was in and out like the wind! Indeed. She shall never suspect a thing!!
We hope so, for your sake
We cannot risk intergalactic war with Titan. Where is the Poozer now? Up to this point, Ziltoid has had his back
turned to the Poozer... but he makes a break for it. Quickly, Ziltoid, show us the Poozer!
Yes, of course, I've kept a very close eye on him... err... (We are all in line and we are all prepared to
die) Gadzooks! HE'S GONE!!!
Through the cold abyss of space, the little Poozer races home... Collective! I'm sure that he was right here...
computer!
Commander?
Please tell me where the Poozer is now...
Current location of the Poozer: directly through the wormhole.
Hmmm... well... poop. Through the wormhole, the Poozer has arrived back on Titan.
He reports to his mother, the war princess, what he has seen, and that it was Ziltoid who had abducted him!
Now the War Princess is a beautiful, vain, and rather grumpy creature.
She lusts for power, and though she is the mother of countless Poozers, her vanity has made her rather revolted
by these "children" of hers.
She is devious; and knows that she can utilize their blind love and devotion to create a formidable army!
