

Saddle Up

CDC

I want you to listen to me baby
I got a lot of things on my mind
 Listen to me baby
I got a lot of things on my mind
 Take a short look back
 Just see what the hell we find

Now you can run high and low
 Do what the hell you please
 Run high, low,
 Do what the hell you please
 I got news for you baby,
 Gone like the cool cool breeze

Well, Saddle Up
 Turn it loose
 Saddle up baby
And won't you turn it loose
 I tried my best to stop you
 Honey it ain't no use

With a cold wind blowin
In through my back door
 Ice cold wind blowin
In through my back door
You keep telling everybody
 You ain't mine no more

 Saddle up
 Turn it loose
 Saddle up baby
And won't you turn it loose
 I tried my best to stop you
 Honey it ain't no use

Give me a brand new pony
Man you want to see us ride
 Give me a brand new pony
Man you want to see us ride
 She keep her daddy happy

But you sure keep us satisfied

Saddle up
Turn it loose
Saddle up baby, baby, baby
I tried my best to stop you
Honey it ain't no use
