

C'est la Vie

Robbie Nevil

Got a job, that's okay
But they've got me workin' night and day
Punchin' in, punchin' out
Is this really what life's all about? Whatcha gonna do? Whatcha gonna feel?
I don't know
Whatcha gonna feel? Whatcha gonna do?
Won't someone tell me? Whatcha wanna say? Whatcha wanna do?
There's only one thing left to say
Whatcha wanna do? Whatcha wanna say? C'est la vie, c'est la vie
That's just the way it goes
(That's life)
C'est la vie, c'est la vie
That's just the way it goes
(That's life) Baby's gone all alone
Are you sad because you're on your own?
Get back up, party down
There's so many good ones still around Whatcha gonna do? Whatcha gonna feel?
I don't know
Whatcha gonna feel? Whatcha gonna do?
Won't someone tell me? Whatcha wanna say? Whatcha wanna do?
I guess there's just one thing to say
Whatcha gonna do? Whatcha wanna say? C'est la vie, c'est la vie
That's just the way it goes
(That's life)
C'est la vie, c'est la vie
That's just the way it goes
(That's life) Hey it's J.J., what you been doin'?
You say your car broke down
The thing just isn't movin'
Say J.J., don't you know?
When you're down there's just one way to go
And that's singin' C'est la vie, c'est la vie
That's just the way it goes
(That's life)
C'est la vie, c'est la vie
That's just the way it goes
(That's life) C'est la vie, c'est la vie
That's just the way it goes
(That's life)

C'est la vie, c'est la vie
That's just the way it goes
(That's life)C'est la vie, c'est la vie
That's just the way it goes
(That's life)
C'est la vie, c'est la vie
That's just the way it goes
(That's life)
...
