Burning for You

Adoleo

My God When You're near me
My heart sets on fire frill
Like dry leaves i'm waiting Your spark can Create something New.

May my only Ambitions be one with what You would desire
To be Who you made me
A heart that's made pure in your fire

May my heart stay burning For You May my heart stay burning For You

Your Children are waiting Expecting that you Will come soon
With Fire and Power Your Flame Always Perfect and New

May you bring us together
A bride that a King would desire
May we enter your glory with Passion Your Presence Inspires

May my heart stay burning For You
May my heart stay burning For You

Consume me Comfort I'll welcome You freely
Breaking my heart and Restore me
Burn off the ember of the enemy
Give me A Passion that's only
Give me Your Love with no boundaries Oh my God

May my heart stay burning For You
May my heart stay burning For You
