White and Gold

Roses Are Red

Why do we not I care to wait, instead I hear this straight from you
Was I mixing colors, mixing signals, missing you
We've tried a thousand times, breathe deep between the lines
Fade away you will fix everythingWe've come this far and I don't need a reason
Sleep alone time wondering again
We've gone this far and I don't need a reasonSo I'll leave the light on for you
I'll twist the knife in for you
Leave me alive
Until you lay down by my sideSo tell me something parting silence, everything to point of view
Was I'm hearing what I'd like to hear by leaving you
I've tried a thousand times, reading between the lines
To walk away is to fix everythingWe've come this far and I don't need a reason
Safe along time wondering again
We've come this far and I don't need a reasonSo I'll leave the light on for you
I'll twist the knife in for you
Leave me alive
Until you lay down by my sideSo I'll leave the light on for you
I'll twist the knife in for you
Leave me alive
Until you lay down by my sideLeave me alive until youYou twist the knife
You twist the knife
Twist the knife
Again and again and again and again and againSo I'll leave the light on for you
I'll twist the knife in for you
Leave me alive
Until you lay down by my sideSo I'll leave the light on for you
I'll twist the knife in for you
Leave me alive
Until you lay down by my side
