

Open Your Eyes (Deep Blue Songspell)

Bea Miller

[Verse 1:]
Water and light
This is us
History falling down
Hope rising up
We're the here and now
All that came before
Can not stay asleep?
We're not children anymore[Hook:]
We can fight the dark
This is who we are
There's a new light coming
Finally had enough
Finally waking up
Who we are becoming
Open your eyes![Verse 2:]
Will you be my love
Will you go with me
Are you who I dreamed?
Or just a memory
Will you understand
What I have to do
Will you be the man
The one I thought I knew[Hook:][Verse 3:]
Into the deep blue
We'll do this together
Water and fire
Reach higher
There's no turning back[Hook:]
