

# 8-3-1

## Lisa Stansfield

The way I want you babe  
It's embarrassing  
I can't control myself  
It's just too much for me yea I can't concentrate  
I don't know what to say  
Except your name baby  
The sweetest name And when we kiss that kiss  
That's when it hits  
With my heart and soul  
I say this Eight letters, three words, one meaning  
In my heart  
Eight letters, three words, one feeling  
When it starts When you say my name  
I begin to shake  
I break out in a sweat  
This is the best it gets There's nothing second rate  
About this feeling babe  
It's forever come what may  
It's what I hope and pray yeah And when we kiss that kiss  
That's when it hits  
With my heart and soul  
I say this baby Yea, three words  
In my heart  
When it starts  
You have, you know baby  
In my heart  
Eight letters, three words, one feeling  
When it starts  
You got to It's understanding and it's understood  
And baby it sure feels good In my heart  
Yea yea yea yea  
When it starts  
Eight letters, three words  
I love you baby  
Three words  
I love you, I love you And when we kiss that kiss  
That's when it hits  
With my heart and soul  
I say this baby In my heart

Eight letters, When it starts  
I love you, Yes I do  
I love you, Yea  
I love you, Yes I do  
Oh you got to know by now  
I love you, I do I do
