## 10 Mile Stereo

## **Beach House**

The heart is a stone and This is a stone that we throw Put your hand on this stone It's the stone of a home you Know they say we will go far But they don't know how far We'll go with our legs on The edge and our feet on the HorizonThey say we can throw far But they don't know how far We throw with our legs on The edge and our feet on the Horizon. The heart is a stone and this is a stone that we throw They say we will go far out They didn't know how far we'll goThis push and pull Is the force of a wave of time

In the heat of a night, we would cry, you are not mine
They said we would go far but they didn't know how far we'd go
Cause this heart is a stone and this is a stone that we throwIt can't be gone

We're still right here

It took so long

Can't say we heard it all

Limbs parallel

We stood so long, we fellTear a moment

From the days

That carry us on forever

Bright pyramids at night

That carry us on forever

Love's like a pantheon

It carries on forever

Can't say we saw it all

Can't say we felt it all
