A Little Bit Of Love

Andreas Johnson

We've gotta make a move, take a chance while the night is young
A sweet romance, though we fuss and fight
You're my song and dance almost every night
Your heart is mine, yeahWe break up a little bit
Make up a little bit, shake up a little bit
Try some harder and that's just apart of it
It's all for a little bit of loveWe've come a long long way from the world
We knew and the jest we played in our neighborhood
No matter what they say about me and you
We live the way we do, the way we do, yeahWe break up a little bit
Make up a little bit, shake up a little bit
Try some harder and that's just apart of it
It's all for a little bit of loveOh, you better believe it, darling
Oh, you better believe it
We don't need itSo we break up a little bit
Make up a little bit, shake up a little bit
Try some harder and that's just apart of it
It's all for a little bit of loveOh, you better believe it, darling
Oh, you better believe it
We don't need itI wanna be with you in every room
I wanna walk with you as bride and groom
Though we crash and burn, we're still in bloom
It's a given thing, you're my hopeSo we break up a little bit
Make up a little bit, shake up a little bit
Try some harder and that's just apart of it
It's all for a little bit of loveSo we break up a little bit
Make up a little bit, shake up a little bit
Try some harder and that's just apart of it
It's all for a little bit of love
