Midnight Sun

Asia

As far as the eye could see

From the horizon to infinity

Static forces down the line

Connecting voices talking rhymesCan't decode nor can define

The signal's perfect, indicates a signMidnight sun

Guiding light

Take the eye

Go skimming

Across the skyMidnight sun

Guiding light

Take the eye

Go skimming

Across the skyAs far as the eye could see

Communications were all down

Connecting voices in the air

New formations moving soundThen came what I could not explain

I felt a hand turned 'round and saw a faceMidnight sun

Guiding light

Take the eye

Go skimming

Across the skyMidnight sun

Guiding light

Take the eye

Go skimming

Across the skyMidnight sun

Guiding light

Take the eye

Go skimming

Across the skyMidnight sun

Guiding light

Take the eye

Go skimming

Across the sky
