Take Me Away

At Vance

Somewhere beyond
In the dark there's a light
Taking my fears
And my dreams out of sight
Gives me the power
And the will to survive this fightI've travelled for ages
In search of the truth
Thousand of pages
Have paid off their dues
But they can't tell
What i am longing forAnd when the dawn of the victory
Is rising with dignity
And then i'll know where to goTake me away
Into infinity
I just cant stay
Realese my tragedy
And i swear
That i'll take more than i can bear
So take me awayDeep down my soul
There's a fire that burns
I won't hesitate
I'll always return
surrendering all of the duties
That i was chosen forI've conquered it all
And so what is the price
I bag for delieverence
Now that i'm wise
Why don't you ease my pain
And free my soulSo i'm laying my weapons down
Do i deserve the crown
Cause i'm here to take my placeTake me away.....
