

Come Alive (Mr. Beatz Remix)

Paris Hilton

I'm living the dream
Having fun
Love is my addiction
I don't care what they say
This life, I'm gonna live it
My life can get so crazy
Oh yeah, oh oh
Our love is so amazing
Feels like forever
Only time will tell
How I feel about you
Only one that knows my heart
Cause boy you see right through You make me smile
You make me dream
You make me feel alive
You make me dance
You make me feel it
You make me come to life
You make me come alive
You make me feel alive
You make me come alive
You make me come alive I can be your dream girl
I'll be your princess
Whatever you choose
I'll travel the world just to be with you
Oh oh, oh oh
I'll put on a show and it's all for you
Yeah baby, oh yeah
Can't stop thinking that this
Love is true
I just wanna be
I just wanna live in the moment Only time will tell
How I feel about you
Only one that knows my heart
Cause boy you see right through You make me smile
You make me dream
You make me feel alive
You make me dance
You make me feel it

You make me come to life
You make me come alive
You make me feel alive
You make me come alive
You make me come aliveHere's my heart
Laying on the line
Know that nothing's perfect
Never give it a try
Gotta live my life
No regrets, no worries
This could be our last chance to feel aliveYou make me smile
You make me dream
You make me feel alive
You make me dance
You make me feel it
You make me come to life
You make me come alive
You make me feel alive
You make me come alive
You make me come alive
