

# Tornado

## Little Big Town

Thought you'd change the weather  
Start a little storm  
Make a little rain  
But I'm gonna do one better hide the sun until you pray  
I'm a tornado, looking for a soul to take  
You're gonna see me coming by the selfish things that you did  
I'm gonna leave you guessin' how this funnel is gonna hit  
I'm a tornado, looking for a man to break  
Yeah, I'm gonna lift this house, spin it all around  
Toss it in the air and put it in the ground  
Make sure you're never found  
Thought you'd take a swing  
Try another girl, try another night,  
But it's the pain that brings my force of nature back to life  
I'm a tornado  
More disturbed than an F5  
Hey, I'm gonna lift this house, spin it all around  
Toss it in the air and put it in the ground  
I'm gonna lift this house, spin it all around  
Toss it in the air and put it in the ground  
Make sure you're never found  
I'm gonna lift this house, spin it all around  
Toss it in the air and put it in the ground  
Yeah, I'm gonna lift this house, spin it all around  
Toss it in the air and put it in the ground  
Make sure you're never found  
The winds are getting stronger  
And the sky is falling through!  
And you ain't got much longer  
Till the rage rips off the roof  
I'm a tornado...  
And I'm coming after you...
