

# Billions

JoJo

3.30 in the morning time  
Watching my lover sleep  
With my heart wide open  
All this racin in my mind  
Goes to lover's lingering  
And my eyes wide open  
Been around the world  
But the roads lead back to you  
If it's 0 gravity I feel pulled right back to you  
Nowadays impossible,  
With love so astronomical  
So trust when you watch me go  
I'll hold it back to you  
Cause I've been to different atmospheres  
Never did I breathe so clear  
Know there's billions in the world  
But I'll always come back to you  
Yeah, you, you, you, you uhu, mhm  
All the seasons I've survived,  
Going up and down this dream  
With my eyes wide open  
I've seen love heal the broken  
It's made me proud to sing  
With my life wide open  
Nowadays impossible,  
With love so astronomical  
So trust when you watch me go  
All the back to you  
Cause I've been to different atmospheres  
Never did I breathe so clear  
I Know there's billions in the world  
But my love's coming back to you  
Yeah I know there's billions in the world  
But I'll always come back to you babe  
Yeah, you, you, you, you uhu, mhm  
Know there's billions in the world  
But I'll always come back to you babe  
(Talking) Cause I've been to different atmospheres  
Know there's billions in the world  
But I'll always come back to you
