

Everything Infinite

Wunder Wunder

Everything Infinite is what we are
Everything Infinite is all we are
Who knows what lays behind that door
Who knows who wins with which war Now I how now Who knows who wins?
Who knows who wins?
Which book you are?
Which book you are?
Come on, come on Everything Infinite is what we are
Everything Infinite is all we are Everything Infinite is what we are
Everything Infinite is all we are
Who knows what lays behind that door
Who knows who wins with which book Now I how now Who knows who wins?
Who knows who wins?
Which book you are?
Which book you are?
Come on, come on Everything infinite is what we are
Everything infinite is all we are Ooo, ooo
Ooo, ooo Ahhhhh Everything infinite is what we are
Everything infinite is all we are Who wants to wait when all is all
Who wants to wait when all is all Now I how now Everything infinite is what we are
Everything infinite is all we are
Everything infinite is what we are
Everything infinite is all we are
