The New (Peel Session)

Interpol

I wish I could live free
I hope it's not beyond me
Settling down, it takes time
One day we'll live together
And life will be better
I have it here, yeah, in my mind
Baby, you know someday you'll slow
And baby, my heart's been breakingI gave a lot to you
I take a lot from you, too
You slave a lot for me
Guess you could say I gave you my edgeI can't pretend
I need to defend
Some part of me from you
I know I've spent some time lying
I can't pretend
I don't need to defend
Some part of me from you
I know I've spent some time lyingHow am I doing?
