

# The New (Peel Session)

## Interpol

I wish I could live free  
I hope it's not beyond me  
Settling down, it takes time  
One day we'll live together  
And life will be better  
I have it here, yeah, in my mind  
Baby, you know someday you'll slow  
And baby, my heart's been breaking I gave a lot to you  
I take a lot from you, too  
You slave a lot for me  
Guess you could say I gave you my edge I can't pretend  
I need to defend  
Some part of me from you  
I know I've spent some time lying  
I can't pretend  
I don't need to defend  
Some part of me from you  
I know I've spent some time lying How am I doing?
