

Wondering Where You Are

[Tyrone Wells](#)

Do you like to watch the sunrise, will you have blue or brown eyes

What are the dreams you long to share

I hope you like Stevie Wonder, are you afraid of thunder

I close my eyes and say a prayer you're out there somewhere

I've been waitin' all of my life for you

I've been wishin' on every shining star

I've been watchin' out of my windows, Wonderin' where you are

Wonderin' where you are

My heart's my own treasure, been saving it for your pleasure

Can't wait to give my heart to you

We'll walk this road together, that leads us to forever

I close my eyes and say a prayer you're out there somewhere

I've been waitin' all of my life for you

I've been wishin' on every shining star

I've been watchin' out of my windows, Wonderin' where you are

Wonderin' where you are

Too many nights alone, and this house wont be a home, untill I'm with you

I've been waitin' all of my life for you

I've been wishin' on every shining star

I've been watchin' out of my windows, Wonderin' where you are

Wonderin' where you are
