

# Oh Dear

[Matt Costa](#)

Early in the morning clouds are dropping on my head  
Remind me the things, last night, I should have left unsaid  
So please forgive the words I use, my mind it tends to run  
Away with the small ideas, I know, I'm not the only one  
So dear, oh dear  
My head it tends to stray away, sometimes I can't see clear  
Oh dear, oh dear

In spite of all the things I said, I always want you near  
Sometimes it rains, sometimes it pours  
Sometimes I'm not that sure  
But anytime you look at me  
Your thoughts, I can't ignore  
The second hand would pass us by  
Should one of us had blinked  
But in a minute realize  
That true love always waits  
My dear, oh dear  
My head it tends to stray away, sometimes I can't see clear  
Oh dear, oh dear

In spite of all the things I said, I always want you near  
Early in the morning clouds are dropping on my head  
Remind me the things last night, I should have left unsaid  
So please forgive the words, I use my mind it tends to run  
Away with the small ideas, I know, I'm not the only one
