

Earth Invasion (Album Version)

Skillet

One man, one mission
One plot to save the world
Reclaim all races and embrace our destiny Changing history when the colliding comes
Where will you run?
Come with us if you want to live Join us in the army that's arising
The truth invades your mind
Every day the Kingdom is advancing
The earth invasion has just begun Earth invasion, just begun
Earth invasion, just begun Without a sound, without fear
It attacks the heart and soul
To rule all life and display His government Changing history when the colliding comes
Where will you run?
Come with us if you want to live Join us in the army that's arising
The truth invades your mind
Every day the Kingdom is advancing
The earth invasion has just begun Join us in the army that's arising
The truth invades your mind
Every day the Kingdom is advancing
The earth invasion has just begun The earth's frustration
To be whole again
We'll see a nation living without sin The earth invasion
One man, one mission
One plot to save the world Join us in the army that's arising
The truth invades your mind
Every day the Kingdom is advancing
The earth invasion has just begun Join us in the army that's arising
The truth invades your mind
Every day the Kingdom is advancing
The earth invasion has just begun Oh oh, oh yeah yeah
Oh oh, oh yeah yeah
Oh oh, oh yeah yeah
The earth invasion has just begun Oh oh, oh yeah yeah
Oh oh, oh yeah yeah
Oh oh, oh yeah yeah
The earth invasion has just begun Oh oh, oh yeah yeah
Oh oh, oh yeah yeah
Oh oh
