

# Constant Motion

## Dream Theater

Tunnel vision at blinding speed  
Controlling my thoughts, obsessing me  
    Void of any uncertainty  
    Throughout my very soul  
    Lost illusions of my control  
    Resisting all hope of letting go  
    Racing impulse of dark desire  
    Drives me through the night  
        I tried to shut it down  
        It leaves me in the dust  
        No matter what I've found  
            I can never get enough  
        Frantic actions of insanity  
        Impulsive laced profanity  
        Long for elusive serenity  
        Way out of my control  
Traveling through both space and time  
    Out of body, out of mind  
        Out of control  
    My wheels in constant motion  
    Spinning round and round it goes  
        I can't let up, I can't let go  
    Can't stop this flame from burning  
    Forever more into the night blistering  
        Focus here, focus there  
        Cannot see the light  
    Falling down through the night  
        Sprawling everywhere  
    Searching left, searching right  
        Panic setting in  
        I can no longer fight  
        When will this end?  
        Accelerate, dislocate  
        Set to crash and burn  
    Haven't got time to waste  
        Not planning to return  
        Aggravate, agitate  
        When will I ever learn?  
    There's no way out of here

Nowhere to turn  
Obsessive yearning  
Compulsive burning  
Still never learning  
Insane random thoughts of neat disorder  
Scattered wasteland surrounding me  
Tattered memories of what used to be  
Apocalyptic mind debris  
Until we meet again  
Traveling through both space and time  
Out of body, out of mind  
Out of control  
My wheels in constant motion  
Spinning round and round it goes  
I can't let up, I can't let go  
Can't stop this flame from burning  
Forever more into the night blistering  
Traveling through both space and time  
Out of body, out of mind  
Out of control  
My wheels in constant motion  
Spinning round and round it goes  
I can't let up, I can't let go  
Can't stop this flame from burning  
Can't stop the wheels from turning  
Traveling through both space and time  
You get yours and I got mine  
Out of control  
My wheels in constant motion  
Spinning round and round it goes  
I can't let up, I can't let go  
Can't stop this flame from burning  
Forever more into the night blistering
