Break The Silence

McQueen

You make me feel so alive
That I'm tryin' hard not to make moves
Choosin' the wrong place and time
Everyone will know the minute we let it go
I can't hold it anymore, let's be original
No holes barred
Can you feel it comin' along?
Break the Silence, non-directional
No holes barred
Can you feel it comin' along, it's on
Hit the switch and turn me on
You make me feel complicated sometimes
I try to explain the way
You took me turned it all around
Everyone will know the minute we let it go
I can't take it anymore, let's be original
No holes barred
Can you feel it comin' along?
Break the Silence, non-directional
No holes barred
Can you feel it comin' along, it's on
Hit the switch and turn me on
'Cause I'm crawling my way through
I'm falling into you
I'm turning on things I though I knew
I'm slipping away
Every time I try to be more like you

No holes barred
Can you feel it comin' along?
Break the Silence, non-directional
No holes barred
Can you feel it comin' along, it's on
Hit the switch and turn me on
No holes barred
Can you feel it comin' along?
Break the Silence, non-directional
No holes barred
Can you feel it comin' along, it's on

Hit the switch and turn me on
Get it on if ya feel it comin' on
If you're real then come along
If you feel the song, come on
Bring it on, bring it on
Get it on if ya feel it comin' on
If you're real then come along
If you feel the song, come on
Bring it on, bring it on
Get it on if ya feel it comin' on
If you're real then come along
If you feel the song, come on
Bring it on, bring it on
