

Strong City

The Moon And Her Mother

We don't play by the book
That's what Michael said
It started off fine with words like love
Ended up on the floorJesus take me away
And I want to believeBiting my tongue
Isn't that how it's always done
But I was a prophet of coffins and blood
You were the hand of GodJesus take me away
And I want to believeMichael don't let me down again I can't take it
Michael don't let me down again I can't take it
A witness job is a precious job so don't fake it
A woman's job is a perfect job so don't fake it
Michael don't let me down again I can't take itJesus take me away
And I want to believeWe don't play by the book
That's what Michael said
