## Atheus

Enter those eyes split back opals  
There within Eros is manifest  
Dark and light soul sworn to no one  
Both it's your game and you know it  
I like you lots now, I like you better  
Walking your cat girls in leashes and leather  
I watch you curl up into a circle  
Symbol of eternity, wicked pussycat  
My fall is starting  
Six foot pussycat, I like the way you swing your tail  
Big black witch cat, yes, you cast a real strong spell  
Feline succubus, got your fangs inside her throat  
Wicked pussycat, got your girl slaves all in tow  
Six foot oni cat, I like the way you lick your fur  
Evil kitty kat, what's it take to hear you purr
