Your Voice

Dreamshade

Don't wait up for me my dear
'cause I'm not coming home tonight
I know you will have fear
but this is what you have to fightMy own solution is an evolution in my state of mind
I want to avoid this disaster
My own solution is an evolution but I am so blind
and time seems to run fasterI hate to hear your voice, when you're upset
But I know... but now I know I have no choice
so I regret, forget the time that I spent with youDon't wait up for me my dear
'cause I'm not coming home tonight
I know you will have fear
but this is what you have to fightIf this is love, please run away from me
as I'm sick of justifying myself to you
My time isn't come 'till I say soMy own solution is an evolution in my state of mind
I want to avoid this disaster
My own solution is an evolution but I am so blind
while time runs fast and I...Hate your voice, when you're upset
But I know... but now I know I have no choice
so I regret, forget the time we spent...I hate to hear your voice, when you're upset
But I know... but now I know I have no choice
so I regret, forget the time we spent...
