

# Still Doin' Time

George Jones

Has it been a year since the last time I've seen her  
My God I could swear it was ten  
And the ocean of liquor I drank to forget her  
Is gonna kill me but I'll drink till then I've been livin' in hell with a bar for a cell  
Still payin' for my cheatin' crime  
And I got a long way to go still doin' time Still doin' time in a honky tonk prison  
Still doin' time, where a man ain't forgiven  
My poor heart is breakin' but there's no escapin'  
Each morning I wake up and I find,  
Still doin' time When you're caught cheatin' twice it's twenty to life  
In a place where the sun never shines  
And tomorrow you're gonna find me right here  
Still doin' time Still doin' time in a honky tonk prison  
Still doin' time, where a man ain't forgiven  
My poor heart is breakin' but there's no escapin'  
Each morning I wake up and I find,  
Still doin' time  
Still doin' time
