

# Show Me Love

Rakim

Yeah, check it out, show me love  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
Makin' love till dawn  
Yo, it's time to bring the day in, fresh out the crib sauteein'  
Around the way-in, swerve on, surveyin'  
That's when I saw her, the kind you wanna see more of  
The sexy aura, it made it hard to ignore her  
Expression her possession of property skyrocket  
I'm investin' in her presence and in time it profits  
I take a acre for you, fertilize the soil  
And make it boil, till it produce black oil  
The Shorty sweet as the flavor of forty divas  
Photos and features worth more than Mona Lisa's  
It's lady luscious, tender touches my blood rushes  
Smiles and blushes on billboards and buses  
And me, I'm just a bronze skinned calm gentleman  
Slim fit and open arms mellow with a Don's grin  
Ghetto disciplined could be your confidant beyond friend  
It's one of Allah's men, Rakim, show me love  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
Makin' love till dawn  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
So we can get it on  
I'm in effect mode, I keep the EP sewed  
When you express your finesse to your dress code  
Every step's a pose, you've been blessed and it shows  
My interest grows, the effervesce explodes  
Because this chick's characteristic's mystic  
Hips are thick, just a little bit of lipstick  
Can't resist it, description Egyptian smile  
Queen of the Nile, that means she dipped in style  
She re-mind of Nefertiti, yes indeed-y  
But it's hard to get it like hieroglyphic graffiti

Studied her exhibits and checked her colorful curves  
Intellect with swerves I coulda wrecked my nerves that's my word  
Diggin' her enigma that exist in a sister  
Carefully wrapped in her figure, we connect like a collision  
And hug just to knowledge her wisdom  
Speed up my metabolism, show me love  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
Makin' love till dawn  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
So we can get it on  
Your M.O. is hard not to notice, so my motives is to stay focused  
Body moves like aerobics attractions  
Vibes I caught came from your ways and actions  
But mind frame hard to explain, no actin' or mind games  
But thinkin' of what can happen is migraines  
The X-rated though remains we relaxin'  
And you naggin' me for the agony to your anatomy  
By the fractions your measurements  
The pleasure's in every inch of your temple  
I travel twenty-three million miles of your mental  
Chemistry, between you and me, in harmony  
Causin' angles to meet like trigonometry or pyramids  
That's where your deepest, treasures are hid  
Then it gets, odiferous, 'cause I know where it is  
I mastered that, 'cause it's easy when you react  
The all-natural aphrodisiac, show me love  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
Makin' love till dawn  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
So we can get it on  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long  
Makin' love till dawn  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long

So we can get it on  
Promise you won't do me wrong  
If I turn you on  
promise you'll stay all night long  
Makin' love till dawn  
Promise you won't do me wrong  
If I turn you on  
Promise you'll stay all night long
