

Dog Days (Demo Version)

Within Temptation

Waking in the dead of night
Hold onto this life
Running to what's wrong or right
Seems to be a thin line
Fighting for a wasted love
Fighting to survive
Oh won't you please forget
Won't you please forget These are the dog days
These are the dog days
They'll never go away
These are the dog days
These are the dog days
They'll never go away 1, 2, 3, 4
What are you waiting for?
1, 2, 3, 4
What are you waiting for?
These are the dog days
These are the dog days Waking in the dead of night
Hold onto this life
Running to what's wrong or right
Seems to be a thin line
Fighting for a wasted love
Fighting to survive
Oh won't you please forget
Won't you please forget These are the dog days
These are the dog days
They'll never go away
These are the dog days
These are the dog days
They'll never go away 1, 2, 3, 4
What are you waiting for?
1, 2, 3, 4
What are you waiting for?
These are the dog days
These are the dog days Embracing the heart
To find the loss
Running down a path that
I think i need to know
When you've think you've won

You're still losing after all
These are the dog days
These are the dog days These are the dog days
These are the dog days
They'll never go away
These are the dog days
These are the dog days
They'll never go away 1, 2, 3, 4
What are you waiting for?
1, 2, 3, 4
What are you waiting for?
These are the dog days
These are the dog days
