

# No Answer (outro)

## Lollipop Lust Kill

Though I heard you say you love me

It pains me to say this

But I have a question

Would you love me

If you could see me?

Would you love me

If you could hear me?

Would you love me

If I wasn't there?

Why do you love me?

Why do you love me?

Why do you love me?

Why do you? Why do? Why?

Why do you love me?
