Protector

Iron Savior

I came from far beyond the time this is my manor I'm reaching for the crown and now it shall be mine this is my realm from far beyond the timeOut in the vast I've been waiting for revenge try to defeat me I will break through your defenseProtector will get inside your mind I will enlight you free you from the blind **Protector** will terminate the pain I will enlight your sick and wicked brainsI am your ProtectorThis is my requiem of revenge This is my rancour I creep inside your mind into your very soul I have the power I am in controlOutcast in the void now I'm stronger than before landed to retake the crown your conquerer comes ashoreProtectorI creep inside

....I creep inside
your very mind
into your soul I'm in controlProtector
....I will get inside your mind
I will free you from the blind
I will teminate the pain
enlight your wicked brains
